Folks:

The bones foretold of light winds out of the SE, making for a respectable Cranberry day. But then we found Cranberry Lake unusable with hard ice in all our favorite locations, the result of the 20-25 degree temperatures. So it was Bowman Bay or bust, where we were greeted with a light but steady wind, maybe 5 mph, coming dead out of the east, over the trees, across the lawn and straight out toward Vancouver Island. This produced a very usable course that was a mirror image of what we usually shoot for at Bowman. We had the start line with the favored end right under our noses then an “interesting” beat to windward toward the beach all of it just off the pier. After some technical boat problems were cleared up we had a solid 11 boat field with 2 Solings banging out 9 races before the Sun started getting low and taking the air temp along with it. One high lite of the day was the introduction of Dick Walsh’s new old boat, the MD2 that Ron Farrell brought back from New Zealand. A very nice boat indeed. The day finished off with a very fine Christmas reception put on by Meg and Chris Chesley at their place out on Dewey Beach with miles of great food and a view to die for. A great day all around.

Enjoy. Larry Stiles

PS. A tip; if you’re fending off a barnacle encrusted piling, DO NOT USE YOUR HANDS! I think someone told me that all ready, I forget. LS
