Finally I can publish the Wednesday February 26th results, sorry for the delay. I failed to make note on the day, but from memory winds were light and very variable from NE and SE . So we were simply able to reverse the start direction and windward ,leeward marks. It was good to see a good turn out such that we were able to field 2 separate fleets. Why this doesn't work on a Sunday I do not understand! Two new arrivals were good to see and 'drool over' - Joes revolutionary "Spanish bulb", and the new "Juice Goth" which did well for its first day out. Help Wanted - We could use a sailor that regularly shows up, to help out with the scoring. This would require familiarity with the HMS scoring program which is an excel derivative. Anyone willing to take this on please contact me. Julian
