Folk:

It was another beautiful afternoon at Bowman Bay. Winds were light in the 1-3 MPH range and built and clocked from W to NW as the marine clouds burned off later in the afternoon. Although the wind was light our boats never stopped moving. I scored the IOM's separately since they used their A Rigs in the light air. The scores are more indicative of the boats that were, or were not, on the water at the time of the race rather than the skipper. It was an opportunity to demo, tune, and trade boats throughout the day. Late in the afternoon an algae bloom moved in and gave us a unique opportunity to see the hydrodynamic effects of our boats moving through the water.

Enjoy.

Mike Doherty
