Date: Sun, 21 Sep 2014 18:03:26 -0700 Wind max 13.1 ave 0.2 mph

The wind predictions for today were way off - the 2 mph from the SSE which probably would not work at Bowman was actually - light- perhaps very light and variable from the West. The average wind for the day was 0.2 MPH. Max 13.1. We had a great time – often tried to leave early ,as we had tons of beer and chips, but just as we all agreed to quit, the wind would strengthen – a relative term ! and so we stayed , had a great time, completed 17 races and quit at 3.00 for the repast. Enjoy Julian
