Folks:

Just as soon as you stepped out of your car you know it was going to be an interesting sail. The wind was out of the NW at an average of 3.2 mph so Julian ended up taking the usual course and flipping it end for end, and it worked beautifully. It was a marble cake of wind, a real test and a lot of fun. It was cold and overcast, mind, but we got in 18 races, then the sun came out and the wind disappeared and so did we.

We have Jerry Brower to thank for a sampling of images he took that captures the sense of the place. Explore his site. It is an absolute gold mine that he has been working on for years.
