Sailors,

Wednesday, 5/02/2016, IOM sailing began with little wind from multiple directions. It tested our patience and abilities to keep your boat moving. It seemed like your boat was always in the wrong place. On top of that the tide came in and brought a salad bar with it. But then the salad bar closed just as suddenly as it opened. As the day progressed the wind became stronger with the last 8 races with a steady westerly coming directly into Bowman bay with clear water. Great racing! At the post race festivities, much to my surprise, I was awarded the sailor of the month.

Regards,
Mike Doherty

Sailor of the Month – Mike Doherty

The first time I sailed was at a boy scout camp in Kansas in a Sunfish. Not a lot of sailing in Kansas. My dad was transferred out to Seattle in the mid-sixties and our family sailing and backpacking experiences started our transformation into northwest natives. I have been sailing and racing big boats for the last 40 years. In the early 80's I partnered with two other buddies and we built a 30 foot ULDB called Risky Business and raced it for about 10 years until families happened. When retirement happened I moved to Anacortes and meet Collie Martin who lived down the street and he invited me to race RC sailboats. Instant new friends and I was hooked. I have been sailing Glamrock ever since to satisfy my need for racing competition. Oh, I also still have a big boat, Hunter 34, but it is the cruising/kayak mothership.
