**Firstly the results for today.**

Well it turns out that some of our throng did not wish to be on the podium perhaps the pressure! or the lack of a display shelf or trophy cabinet? The speculation goes on. Larry has heart palpitations while he is making big decisions like which beer to purchase for the event. Not sure we will be given the opportunity to see a Doctor's note! Having taken his medications and slept the day away he is now fine. Joe tries to set his boat on fire and blows a 10 amp fuse which puts him out of action for the first few races. The wind also failed to show up for quite a while and when it did it could be described as light and variable making setting up a course very tricky. Thanks to our volunteer "Boat Buoy Boy" Rich Cushing we managed to sort out a few very acceptable ones but as a result we only managed 10 races for the day. Here are the results.

**Final Tally.**

We have been graced with fine weather and very respectable Westerlies for the whole series until today when it seems summer went into hiding and left us with drizzle. After each event we have enjoyed a BBQ within the park but today we all retired to our home for a BBQ to get out of the drizzle, except Rich who must have been worn out from setting so many courses and Joe who was last seen going to purchase more fuses!

My thanks go to Trish our very able PRO. Marc our mark invigilator, Larry for taking on the task of registration and scoring, sorry the beer selection process became so complicated! Rich who now seems to prefer Waders as a personal sauna to sail in. Jean for her constant support and encouragement. Barry for adding an out of town element, and Bob for the ultimate in last minute and probably his most expensive day of sailing yet, and all of our sailors that put up with The Management.

Not So Respectfully, Julian

**2016 Bowman Bay Caper - August Wednesday Series - Scoring method - HMS Result Tally, low wins**

Position	Skipper	8.3.16	8.10.16	8.17.16	8.24.16	8.31.16	Total	2 T/O	1 T/O
