We were all anticipating a cold temperature but several of us had to peel off a layer of clothing in the bright sunny stunningly beautiful day that greeted this sailing experience. The light puffy very variable wind proved quite a test in which to be consistent. Joe with his new V10 showed us the way and showed us the value of having a 10 amp fuse in his battery circuit! We had all sorts of Drama with boats having to be saved by the Boat Boy (Mike Doherty) who had to save his own boat after boasting that it got Zero maintenance in fact he reflected" that the green stuff inside sort of held things together! "Good humor prevailed and clean sailing, most of the time was the order of the day. In all it was a joy to be there. I have attached the scores for your reading pleasure. I believe that next Sunday we should take a break from sailing as there is a game that will probably take up some of your time. I hope to see you Wednesday next Feb 8th. If any of our 42 DPMYC members would like to try sailing an IOM I have a loaner for that purpose. Julian usaion40@gmail.com 360 391 5044
