Jerry, Julian sent bcc so maybe you received. It was raining like heck at my house in the am but turned out to be clear at Bowman.

From: Julian Lee

Bowman Bay today could be best likened to sailing in Camelot. Beautiful blue skies and sunshine all day with a wind that started from the West enabling us to have a course parallel to the dock which eventually clocked from the North. This made the course a little reachy but one of those sailing days which make you so thankful to be alive!

We each had our moments some more than others, notable was Ray with a first in race 8 - his scores were effected by his late arrival. Mike was challenged again with his intermittent electronic problems, but he managed 2 firsts. Steve is getting into the swing of things with his new ( to him) V9, and had several second places. From race 9 on we were graced with a spectator score keeper - Doug White of Walla Walla College, who appears to be totally hooked on radio sailing.
