Folks:

From ciao was created order.

The early wind was completely undecided until around 11:00 when it straightened itself out and presented us with a steady westerly averaging an agreeable 2.1 MPH, and hardly a weed to be seen.

We very much enjoyed having a visitor from Perth Australia, Rosco (Ross) Bennett and his wife Audree, touring the local IOM venues on their way to Texas for the National's.

Another great regatta at a spectacular venue.

Kudos to the people that supported the event with their effort and post race goodies.

Enjoy. Larry Stiles

P.S. If you have just returned from your time travels you may have missed some earth shaking news and I don't mean last years elections.

We have had, for some time now, a resource for all things IOM that sports vast utility. It's the web site IBEXTrax , conceived, constructed and continued by Jerry Warren Brower.

WWW.IBEXTRAX.com

Like Diane Beestons book Of Wind, Fog and Sail I find it nearly impossible not to be distracted by some new and utterly fascinating "thing" that I really wasn't looking for. Check it out. LS
