

09/21 Olympia Model Sailors [DF95](#) #90 from [Swantown](#).

Dan Shier reporting:

4 mighty sailors made it to Swantown today for our twice monthly sailing. Today greeted us with the strongest wind of the year. Top of A rig wind condition left some of the skippers longing for their B rig. We used the opportunity to work on our tuning for big bumps and big winds. Per Flygare taught a few new people to sail and we did a bunch of racing without keeping score. Dan McDuff splashed his new DF95 sporting his blue checkered flag graphics. Dick made the trip from Longview to win the longest distance traveled. I told people to bring drinks and snacks and everyone brought beer....we are the perfect crowd for a pot luck. Next week is IOM region 6 championships where some of the best racers in the county will be showing up to sail our Pacific Northwest water. See everyone next time.
